Date of production 01/04/2024

What is this product?

Type

The sub-fund is a sub-fund of the fund, the latter being a Luxembourg SICAV (Société d'Investissement à Capital Variable / Investment company with variable capital), qualifying as an undertaking for collective investment in transferable securities ("UCITS") under Part I of the 2010 Law.

Term

This sub-fund has no maturity date. However, the sub-fund could be terminated under the conditions led down in the Prospectus and in the Articles of incorporation of CIGOGNE UCITS.

Objectives

The objective of the sub-fund is to generate regular returns by exploiting a multi-strategy approach. The performance of the sub-fund is therefore evaluated in absolute terms and not in relation to a benchmark. The sub-fund is actively managed and uses the Euro short-term rate (€STR), retrospectively, as an indicator to evaluate the performance of the sub-fund. There are no constraints relative to the index that limit the constitution of the portfolio.

The investment objective of CIGOGNE UCITS - Credit Opportunities is to realize consistently high risk-adjusted appreciation in the value of its assets while maintaining a low correlation with main market trends. The sub-fund will seek to achieve its investment objective by primarily using relative value strategies, convertible bonds arbitrage, credit strategies and global macro strategies.

The sub-fund also promotes environmental characteristics in accordance with Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR). It thus applies sustainability criteria to exclude investments that present a high environmental risk, while ensuring a minimum proportion of 5% of sustainable investments.

The performance of the sub-fund is mainly due to the active allocation of investments that can be implemented in the following geographical areas: Europe, North America and Asia. The sub-fund is allowed to invest incidentally in other geographical areas.

The sub-fund will seek to achieve its investment objective by primarily using strategies on all types of debt securities and debt instruments issued by public and/or private issuers worldwide, including, without limitation, fixed rate bonds, variable rate bonds, inflation linked bonds, hybrid securities such as convertible bonds, mandatory convertible bonds, contingent convertible bonds (up to 20% of the sub-fund's net assets) and securitizations (up to 20% of the sub-fund's net assets) such as asset-backed securities, mortgage-backed securities, collateralised loan obligations. The debt securities in which the sub-fund invests include primarily private (corporate) issuers but may include any type of issuer without minimum rating restrictions.

The sub-fund can invest in financial derivative instruments, such as but not limited to futures, options, equity swaps, CFDs, bond swaps, currency derivatives, credit default swaps (including swaps on indices such as CDX or iTraxx as underlying), credit options and other credit related instruments.

The sub-fund can also invest in equity securities, warrants, closed-ended RE-ITS (up to 20% of the net assets) and Exchange-Traded Fund (ETF) on global or sectorial indexes.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is intended for retail, well-informed and professional investors.

Other information

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on www.cigogne-management.com. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2023 and this unit class in 2023.

The reference currency of the sub-fund is expressed in EUR. The currency of the unit class is expressed in USD. For this unit class, the foreign-exchange risk of the unit currency is systematically hedged against the sub-fund's reference currency.

Additional information for investors in Switzerland

The representative in Switzerland is CACEIS (Switzerland) SA, Route de Signy 35, 1260 Nyon. The payment service in Switzerland is CACEIS Bank, Montrouge, Nyon / Switzerland branch, Route de Signy 35, 1260 Nyon. The prospectus and the basic information sheet respectively the key information for the investor, articles of association as well as the annual and semi-annual reports may be obtained free of charge from the representative. The risk indicator and the performance scenarios were calculated and presented in accordance with the regulations of the fund's home country.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Derivatives risk, counterparty risk, other risks

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance.

Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Recommended holding period: 3 years			
Example investment: 10.000 USD			
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7.380 USD	7.630 USD
	Average return each year	-26,2 %	-8,6 %
Unfavourable	What you might get back after costs	9.470 USD	10.310 USD
	Average return each year	-5,3 %	1,0 %
Moderate	What you might get back after costs	10.580 USD	11.860 USD
	Average return each year	5,8 %	5,9 %
Favourable	What you might get back after costs	11.970 USD	13.370 USD
	Average return each year	19,7 %	10,2 %

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between March 2017 and March 2020, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between March 2020 and March 2023, by referring to a benchmark.

Moderate scenario: This type of scenario occurred for an investment between October 2015 and October 2018, by referring to a benchmark.

What happens if Cigogne Management S.A. is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer. To protect you, the assets of the sub-fund are held in safekeeping by the Depositary. In the event of the insolvency of the Manufacturer, the sub-fund's assets in the safekeeping of the Depositary will not be affected, the investments will be liquidated and the proceeds will be distributed to the investors. In this case you could suffer a financial loss and, in the worst case, you could lose your entire investment. You are not covered by any national compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10.000 USD is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	239 USD	822 USD
Annual cost impact (*)	2,4 %	2,4 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8,2% before costs and 5,9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,4% of the value of your investment per year. This is an estimate based on actual costs over the last year.	141 USD
Transaction costs	0,0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 USD
Incidental costs taken under specific conditions		
Performance fees	20% of the performance of the Net Asset Value per share of the relevant class (measured against the High Water Mark) over the Secured Overnight Financing Rate (SOFR). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	96 USD

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The recommended holding period is set to 3 years based on the Objectives of the sub-fund and the strategies implemented as described in the Prospectus. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on a weekly basis.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to contact@cigogne-management.com, by letter to 18 Boulevard Royal - L-2449 Luxembourg, by phone calling the number (+352) 27 46-1.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.cigogne-management.com.

Other relevant information

The prospectus, the latest version of the Key Information Document as well as the latest annual and semi-annual report, may be obtained free of charge on www.cigogne-management.com.

Past performance and previous performance scenarios: Historical returns are not yet available. Previously published performance scenarios, updated on a monthly basis, are available on <https://www.yourpriips.eu/site/102549/en-CH>.

Where this product is used as the support for a unit-linked life insurance or capitalisation policy, additional information on this policy, such as the costs of the contract, which are not included in the costs set out in this document, how to submit a claim and what happens if the insurance company defaults, is set out in the key information document for this policy, which must be provided by your insurer or broker or any other insurance intermediary in accordance with its legal obligations
